Location: Bangalore, Karnataka

PROFESSIONAL SUMMARY

Software Engineer experienced in building backend applications using Java and Spring Boot. Skilled in developing secure REST APIs, implementing JWT authentication, optimizing databases, and contributing to full-stack features with React. Hands-on experience working with Spring AI for intelligent application features.

TECHNICAL SKILLS

Programming Languages: Core Java, JavaScript, SQL

Backend: Spring Boot, Spring Security, Spring Data JPA, Spring Web, Spring MVC, Spring AI, Node.js, Express

Frontend: React, Redux, Tailwind CSS, Vite

Databases: PostgreSQL, MongoDB, MySQL, H2

Cloud & Storage: AWS (EC2, S3, RDS), Wasabi S3, Supabase

Tools & Practices: REST APIs, JWT Authentication, Kafka, Redis, Git, Maven, Docker, Claude Code, GitHub Copilot, OpenAI Codex

PROFESSIONAL EXPERIENCE

Software Engineer

Oct 2025 - Present

Capgemini Technology Services India Limited

- Strengthened foundation in **Core Java and Object-Oriented Programming (OOP)**, applying concepts to build structured and maintainable applications
- Built RESTful web services using **JDBC, Spring Boot, Spring MVC, Spring REST, Spring Data JPA** with authentication and authorization via **Spring Security**
- Integrated intelligent features using **Spring AI** within backend services
- Containerized applications using **Docker** and gained exposure to **microservices architecture**

Software Development Engineer Intern

Jan 2025 - Aug 2025

AppBrahma Innovations Pvt. Ltd, Bangalore, Karnataka

- Built production-ready backend modules using **Spring Boot, Spring Security, Spring Web, Spring Data MongoDB** with secure JWT authentication
- Optimized MongoDB queries with **compound indexing**, achieving **35% faster lookups** and improving system responsiveness
- Implemented **GeoJSON** geospatial features and developed extensive logging using **SLF4J + Logback** for traceability
- Delivered full-stack features using **React, Redux, Tailwind CSS**, improving UI responsiveness and load performance through **React Query**
- Developed an **AI-powered chatbot** using **Spring AI** with **RAG (Retrieval-Augmented Generation)** architecture, integrated with PostgreSQL (pgvector extension) for embedding storage and semantic similarity search

KEY PROJECTS

Print Hub Connect | Java, Spring Boot, React, PostgreSQL, AWS

Live Demo: printezly.com

- Developed a real-time print-shop discovery platform using **Java 17, Spring Boot 3, Spring MVC, PostgreSQL, React 18**, enabling real-time file uploads and shop discovery with sub-second proximity search performance
- Implemented high-performance file delivery using **Wasabi S3 presigned URLs** for large PDF transfers and integrated **Google Maps API** with Java Streams + Haversine formula for accurate shop proximity ranking
- Decoupled file upload pipeline using **Kafka** — producer publishes upload events to a dedicated topic, consumer handles S3 processing asynchronously, eliminating blocking I/O on the main thread
- Implemented **Redis caching** for nearby shop search results with a 5-minute TTL, reducing repeated geospatial query load by ~60% for frequent search coordinates

Connect-Sphere Social Platform | Node.js, Express, MongoDB, React

GitHub: github.com/amin123o9/Old-Insta-Server

- Built a full-featured social platform backend following **MVC architecture** with secure JWT-based authentication and automated token rotation
- Implemented advanced middleware to prevent XSS and session hijacking, significantly strengthening application security
- Integrated user posts, interactions, and Cloudinary-based media handling with responsive React animations for enhanced UX

EDUCATION

Bachelor of Engineering in Information Science and Engineering

2021 - 2025

BNM Institute of Technology, Bangalore, Karnataka | CGPA: 9.28/10.0

CERTIFICATIONS AND ACHIEVEMENTS

- Java Certification - IIT Bombay (Certificate)
- 2nd Place - Internal Internship-I Hackathon, ISE Dept (Certificate)
- Java Spring Framework, Spring Boot, Spring AI - Gen AI - Udemy (Certificate)
- Cloud Launchpad Program - PwC (Certificate)
- Runner-up - TechIT Club Competition
